Meet the Team

With over 50 years combined experience in the industry, our staff can help you with engineered solutions and the selection of products to suit your requirements.

We have a team of 6 in the Electrical BU across our three branches (Auckland, Wellington and Christchurch) who are highly knowledgeable on the full range of electrical products we supply.

To learn more about Eurotec and the team, visit our website and **Follow the Electrical BU Showcase Page on LinkedIn** for regular updates and product information.

Electrical Business Unit Update

The Electrical Business Unit of Eurotec Limited is focused on the supply of quality electrical products for many industrial, commercial and domestic applications. These include controls for temperature, pressure, liquid level, flow and many others.

We have a dedicated team of experienced and knowledgeable sales engineers with a focus on customer service. We are able to support our customers with the right product and solution for their application.

In the Industrial sector, our leading brands include Trafag (Pressure and temperature controls from Switzerland), Alre (Temperature controls from Germany) Benedikt & Jaeger (Motor controls from Austria) and Kubler (Level controls also from Switzerland). We are also able to offer products from a number of other quality European manufacturers in support of the above, including; Texelco (Audible and visual warning

devices), Giovenzana (Foot & Limit switches and crane controls) and Alfa (Switchboard temperature controls) To name just a few.

For the Commercial sector, Wattstopper is our flagship range of lighting controls. Wattstopper has been in New Zealand for over 20 years and is a market leader for occupancy sensors and daylight harvesting controls. We are also able to offer other products in this sector for temperature & humidity control.

When it come to the Domestic market, Orbis and CoCo (Controlled Comfort) are the ranges that offer great solutions for energy saving and home automation, including wireless controls. Orbis, from Spain, offer a good range of innovative movement sensors and DIN rail mounted products including time clocks and kWh meters. CoCo, from Holland, produce a great range of wireless control solutions for many applications in the home.

We measure it. **testo**

\$2,790⁰⁰ LIST

For those who get things done.

Testo 870: the thermal imager specially for service engineers. So you can act before your system breaks down.

- High-value detector with 160 x 120 pixels
- Easy operation - switch on and go
- Pays off only after a few applications

Upcoming Events

ENGINEERING, MACHINERY & ELECTRONICS EXHIBITION

The EMEX Tradeshow 2014 is New Zealand's premier tradeshow for the Manufacturing, Engineering, Machinery, Electronics and Technology Industries.

The Electrical BU, headed up by Shaun Nelson and with the support of his team, will be showcasing a wide range of industrial products for applications including, pressure, level, temperature and motor control.

We also supply audible & visual warning devices, crane pendant controls, foot & limit switches and control panel accessories for heat and cooling.

The European manufacturers represented include, Trafag and KSR Kubler from Switzerland, Alre and Benning from Germany, Benedict from Austria, Relpol from Poland as well as MAC3, Giovenzana, Texelco and Alfa from Italy.

Come and visit the **Eurotec Ltd stand (no. 3000)** Please stop by, we'd love to discuss your next project.
27th-29th May at the Auckland ASB Showgrounds.

Product Showcase TEXELCO

Audible and Visual Warning Devices.

TEXELCO is Eurotecs Italian partner for warning lights and electronic sounders. This innovative manufacturer offers the T370 (fig.3) range of stackable tower lights and sounders (fig.2), the B180 (fig.1) range of warning beacons and sounders as well as the S600 range of beacons.

•**Visual Indicators;**
Steady and flashing lights. T370 with multifunction LED's for programmable functions including a simulated rotating beacon.

•**Audio Indicators;**
Standalone and combination units (with LED warning lights). Single tone and up to 16 tone multi-tone sounders.

•**Full Size Beacons;**
The S600 series beacons measure

115 Ø x 205mm IP65 with steady, flashing or rotating options.

•**Mounting Accessories:**
The T370 and B180 have a complete range of mounting tubes, bases and wall brackets.

•**Replacement Lamps;**
Many of the light modules use a replaceable BA15d LED lamp. The lamp colour must be co-ordinated with the lens colour for the best colour rendition and visibility over the longest range.
