

HVAC Business Unit Newsletter

Issue 34

April 2024

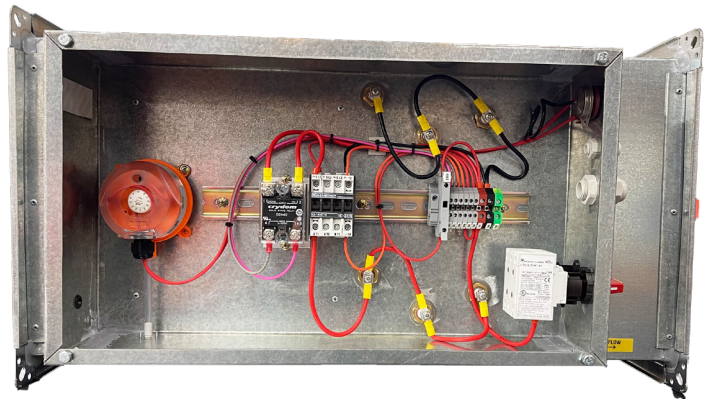

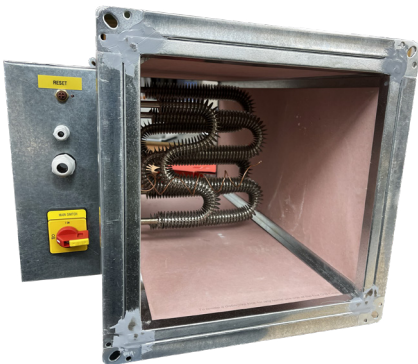

Inside this issue:
CPS Duct Heater

The CPS Electric Duct Heater is not just another addition to the market – **IT IS A GAME-CHANGER!** What sets this heater apart from the competition is our commitment to providing unparalleled control and efficiency to our customers.

Eurotec's CPS Duct Heaters are manufactured from Galvanized steel and are internally insulated with GIB Fyreduct in compliance with ASNZS 3102:2002.

Carel Controller

Our Electric Duct Heater is equipped with **state-of-the-art CAREL** controls allowing for precise temperature regulation and additional safety. Whether you need to maintain a specific temperature range or adjust settings on the fly, our intuitive control interface makes it effortless. The controller can be integrated into any third-party BMS system.

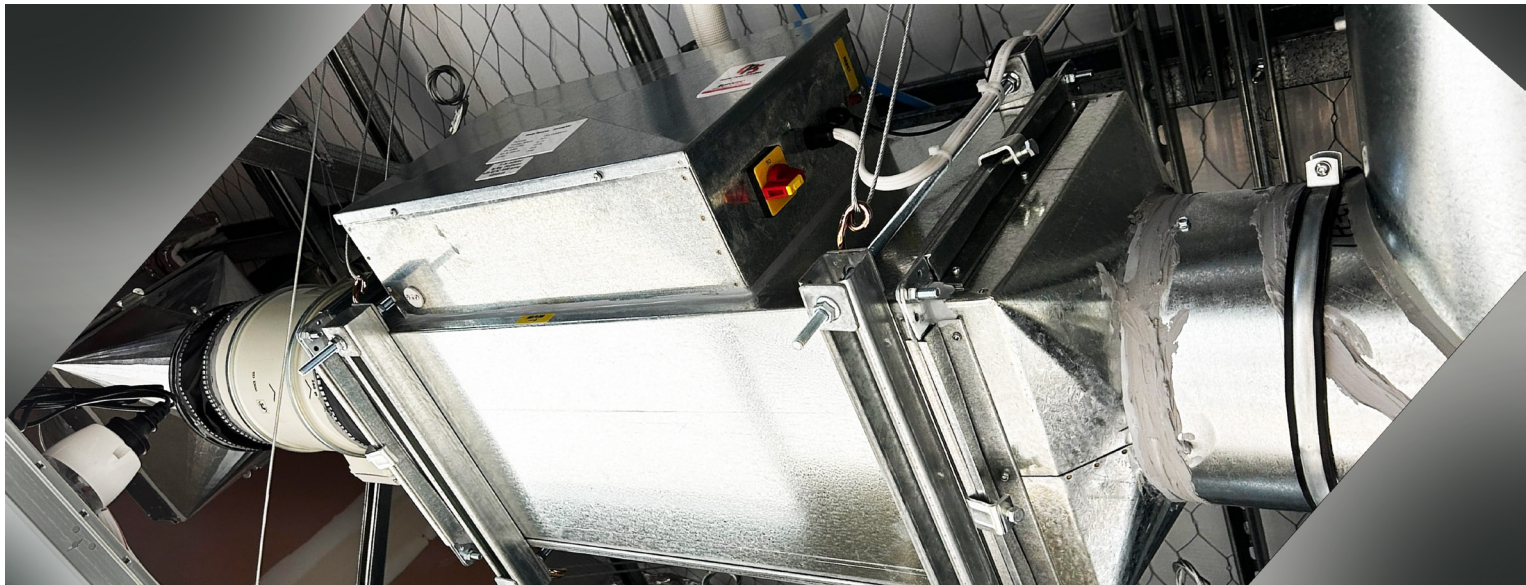

Smart Thermostat Integration

Say goodbye to guesswork and hello to efficiency. Our Electric Duct Heater seamlessly integrates with smart thermostat systems, enabling you to optimize energy usage and ensure optimal comfort levels with ease.

Energy Efficient Design

We understand the importance of sustainability, which is why our Electric Duct Heater is engineered for maximum energy efficiency. By minimizing heat loss and optimizing airflow, you can enjoy significant cost savings without compromising performance.

Reliability & Durability

Built to last, our Electric Duct Heater is constructed from high-quality materials and rigorously tested to withstand the rigors of daily use. With proper maintenance, you can trust that our heater will continue to deliver exceptional performance for years to come.

Delivery Commitment

Understanding the importance of timely delivery in your operations, we have undertaken a thorough standardization process aimed at optimizing our production workflow, refining our manufacturing process, and minimizing the turnaround times to 1 week.

Consistent Quality

Despite the emphasis on speed, we maintain rigorous quality control measures throughout the production process to uphold the high standards that you have come to expect from us.
